

To Those Who Seek Truth:

Truth is said to just ...be. It can't be created or changed, ... it just is.

Unless of course the human mind and emotions get involved! And then, we seem to fight Truth tooth and nail because many of us have invested so much time and personal pride to pick up what we know today.

This is why it was so refreshing for me to see science take another step closer to what Theosophy and the Ancient Wisdom has taught for millennia. I am referring to "The Brain's Dark Energy" Scientific American Magazine, March 2010 by Marcus E. Raichle. For some more information click on this link http://nargaque.wordpress.com/2010/03/15/the_brains_dark_energy/%20 or copy and paste it into your browser.

Here is a small quote from that article:

“A large fraction of the over-all activity – from 60 to 80 percent of all energy used by the brain – occurs in circuits unrelated to any external event. With a nod to our astronomer colleagues, our group came to call this intrinsic activity the brain's dark energy, a reference to the unseen energy that also represents the mass of most of the universe.”

To those of you who might shy away from these weird terms above; use **"how we function on the emotional and mental plane"**.

For many years now, **Dr. Douglas M. Baker** has tried to convince the public and scientist alike, that **Astral Matter and Mental Energy is Dark Matter and Dark Energy** respectively! His extensive esoteric writings are said to be the largest collection in the world produced by a living author. He has written over 100 books, many of which have been translated into the 7 European languages.

Why am I writing you today? Because I believe you are interested in how you, and the people you know, as well as the people you teach or heal, actually function.

Dr. Baker released several audio lectures on this topic during the 2010 Summer Seminars. These are now available at this website (www.douglasbaker.org) Some of the lectures dealing with the above subject are:
